Dear Harold, Please excuse the notebook paper! I received your note, I am very glad to hear that, yet again, your high spirits and positive outlook prevail! Man, what drives your endless optimism? Hooray for you Harold!

Judge Joe Brown was introduced to me by Cyril Wecht. I told Judge Brown that Harold Weisberg worked on the King case, and, would he be interested in any of Harolds work and pertinent info? Judge Brown was instantly interested and asked to be gotten ahold of as soon as Harold was feeling better. As I see it, Judge Brown could use any help in this case, as the original work by you Harold is very important concerning the dynamics of the deal making and shenanigans! By the way Harold, Dwyers daughter and I were good friends in the early eighties, her name was Beatrice

and at that time she left Memphis because of bad blood between Daddy Dwyer and her. She lived with my fiance and I for a month or so.

Anyway here is a copy of Judge Brown's card, I have talked to his office and they/He are aware that you will be writing them, or I will write for you!

I hope that soon I can be of some service to you and Gillian on the home front.

Also Harold my research and intensive reading (31,000 pages since October 97) has brought me to some starling revelations on a personal level! It turns out that a Mr. Siragusa and OJ/WIN worked with my Father in Luxembourg and Frankfurt in '63. Sep to Dec. and my Father met with CIAS section chief a Luxembourg in early sixty four. I dont know if I told you this but my Father

at that time was a Lieutenant Colonel military intelligience. Head of collections at the I.G. FARBEN Bld. Frankfurt Germany. Dad worked sans uniform and was directly involved with CIA, ASA, DIA. I clearly remember family friends, older gentlemen who came by often. Dad told me as years progressed that many of these guys were intel operatives. Dad also in 46+47 was a Captain with C.I.C. in Wels Austria. This is where Art Fletner and Dad worked operation Paper clip. Dad was directly involved with Reinhard Gehlen and Dornberger. I worked building homes for many of my fathers fellow intel people I cursently am working for Pete Kalitka. FBI until '57 and then detailed to Secret Service - He did Kennedy compound Hyannis, until '62. This man was operational from 63-80. He is now connected with DIA. Pete is absolutely certain of conspiracy and applauds my

relentless pursuit thru this miasma of Smoke and Mirrors'.
My Father in 1969 went on to Long Binh, Vietnam and became G-2 II Field Force Victor directly under Gen. Abrams.
In 1970 the family (I was 13) was shipped to my birth place Munich Germany where dad became Deputy Commander of 66th M.I. group.
In 1971 we moved to Heidelberg. where Dad was Head of Collections U.S. army Europe military Intel.
He ~~retired~~ retired August '74.

I forgot to add 67-69 my Father was Pentagon OACSI, the top position as a full Colonel - sort of liaison between all U.S. intel agencies and military (army) intel. He worked directly with the agency (CIA). In later years my Father related to me, that he had nothing but resentment towards C.I.A. ~~that~~ that they were back stabbing glory grabbing sons-of-bitches

In fact two days before he died in 1994 my father was ordering a book on the dismantling of the C.I.A. He related that much of the work he accomplished as a top notch Intel operative was taken credit for by his counterparts in the C.I.A. He detested their unprofessional methods and their renegade recklessness. He considered their average agents skills of "TRADECRAFT" to be lacking.

I am friends with about 60-70 of his retired counterparts in Counter Intell. Many a time they have told me what a wonderful man he was. Dad was full of integrity and was very highly decorated. It never occured to my father to be anything but above board and straightforward. He raised four children, Betsy Sanders - third in command of the Board of Directors WALMART shes fifty four and sits on eleven Fortune 500 boards.

Susan Moenkhaus, shes fifty and an accomplished editor in Saint Louis. Erika Schleifman shes forty seven and senior V.P. for Tucker Anthony brokerage house in D.C. Of course there some forty one and an aspiring Harold Weisberg type! Anyhow this father of mine almost certainly dealt with one of the very planners of the assasination. I also know he was involved in the cuba crisis in 61 '62. Harold, Dad may have inadvertenly stepped around on the periphery of the planning stages as this was compartmentalized, Dad wouldnt have known! Its almost too close for home, but my father wasnt a shit-bag like William Harvey or James J. Angleton. He was like you and he taught me compassion and the virtues of honesty. He also taught me never to embrace speculation or rootless theory.

I miss the man greatly but I cant help but be curious

as to those years, and what my father may have known. I know he loved his work and he also respected greatly his commander-in chief John F. Kennedy!.

Please call me @ 540 882-3983
Sincerely your servant & friend
Thomas Michael Weaver.

GOD BLESS YOU!

P.S. Harold,

Not to be banging my own drum. but my father is a direct descendant of Governor Walton who signed the Declaration of Independence! Walton was governor Georgia, Superior court Justice and Senator. Maybe I can share my work; become a deserving American. To continue to give life to the legacy of our and my founding fathers.
